External Contractors: TeleDaTa ICT

Project Brief: **Virtual Graduation Ceremony - AIS**

With the continuous restriction to social and gathering and measures taken to ensure the spread of conovarius, AIS needed a way to say a warm farewell to their final year students.

The solution would have the following features:

- 1.

Project Solution:

Virtual Online Graduation Ceremony

Detail solution:

1. Install cameras and drones for shooting and recording feeds for production.
2. Installation of systems to communicate with all installed cameras and displays from the control room.
3. Pick live feeds from our deployed cameras and share content online for an streaming portal.
4. Designed and managed content from the control room for a better virtual experience.
5. Connect and share live feed of special guest and a student to the graduands room.
6. Fully record the entire session.
